# About Uvox

*Our vision is to lead with superior, secure and sustainable products.*

*Our mission is to provide the highest quality EM Shielding and Thermal Management for today's electronics industry.*

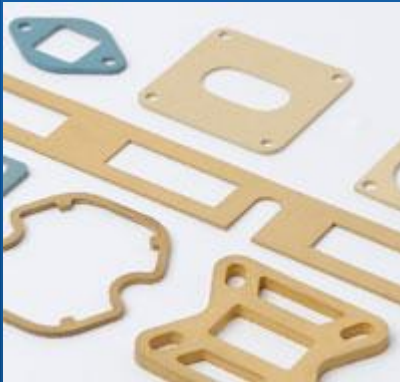

# History - 1

- 2005 *Company Incorporated*
- 2008 *Moved to Bridgnorth offices ~ doubled floor space*
- 2010 *Supplying RS Components*  
*New Wet-Spray Facility*  
*New Zund CNC Cutting Machine*
- 2011 *Added power-press for metal parts*  
*CNC Form-In-Place Machine added*  
*Additional inspection equipment added*
- 2012 *AS9100 Rev 'C' awarded*  
*Installed new network*

# History - 2

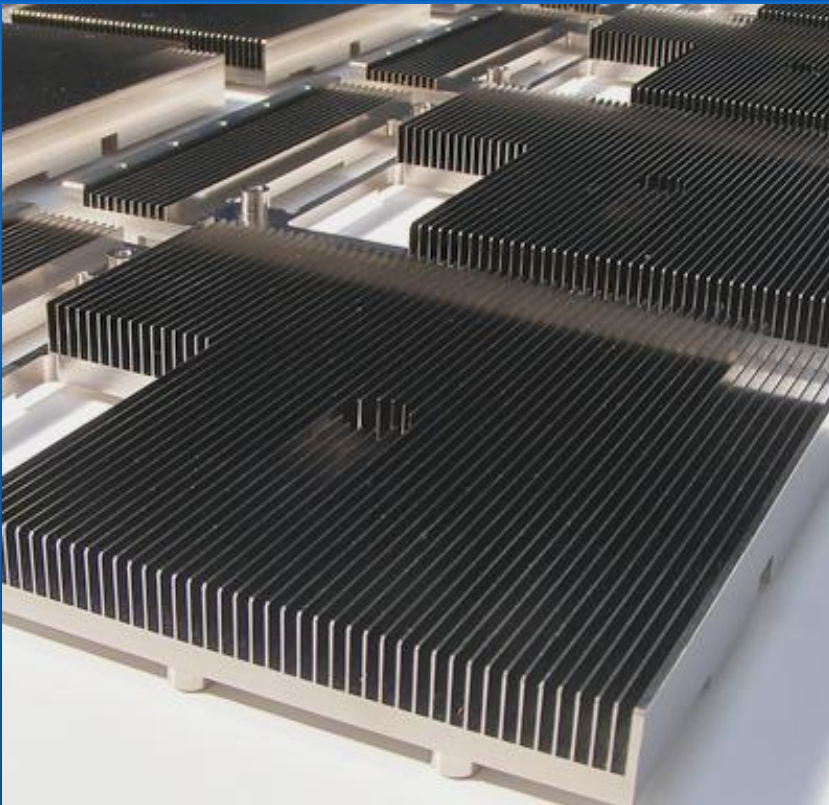

- 2013 *Extra staff added throughout organisation as company grows.*
- 2014 *New Auto-cutter for thermal tapes (used in LED lighting)*  
*New 3D printing facility for rapid prototyping.*
- 2015 *Integrated heat-pipe final assembly brought in-house.*  
*Inert gas heat-treatment added.*
- 2016 *New offices & factory x2.5 floor area*

# Capabilities - Shielding

- Conductive Coating
- Form-in-Place
- Conductive Elastomers
- Conductive Fabric
- Knitted Mesh
- Shielding Windows
- Shielding Enclosures
- Shielding Vent Panels

# Capabilities - Thermal

- Standard Heatsinks and extrusions
- Custom Heatsinks & assemblies
- Heat-pipes
- Cold-plates
- Thermal Interface Materials (TIM's)

# Capabilities ~ Heatsinks

- Standard on-PCB heatsinks
- Extruded sections
- Custom heatsinks
- Heat-pipes & heatpipe assemblies included 'embedded' designs
- Fanless (convection-only) heatsinks

# Why UVOX?

- Customer-focused
- > 88% OTIF Delivery
- > 99.8% RFT Quality
- Commitment to Continual Improvement and Lean Techniques
- Long technical experience of EMC & Thermal interface materials (TIMs)
- Pro-active, agile approach
- Honest and open

# Already chosen UVOX:

- BAE SYSTEMS
- Leonardo MW
- Siemens
- Bosch
- Many UK LED lighting companies

# Future plans

- Continued commitment to quality
- Investment in more cutting-edge technology
- Additional distributors
- Export growth
- Strength in partnerships
